

Welcome!

Wild Meat Learning Group Webinar

Wild meat consumer segmentation in Ho Chi Minh City, Vietnam

October 27th, 2021

This webinar will be recorded

Context: Wild Meat, One Health, and Sustainable Food Systems

One Health
Working Group

ENRM
Sustainable
Food Systems

Agenda

8:00-8:15

Introduction:

- Context
- Theory Change
- Learning Questions
- Guest Speaker

8:15-8:45

[Alegria's Presentation]

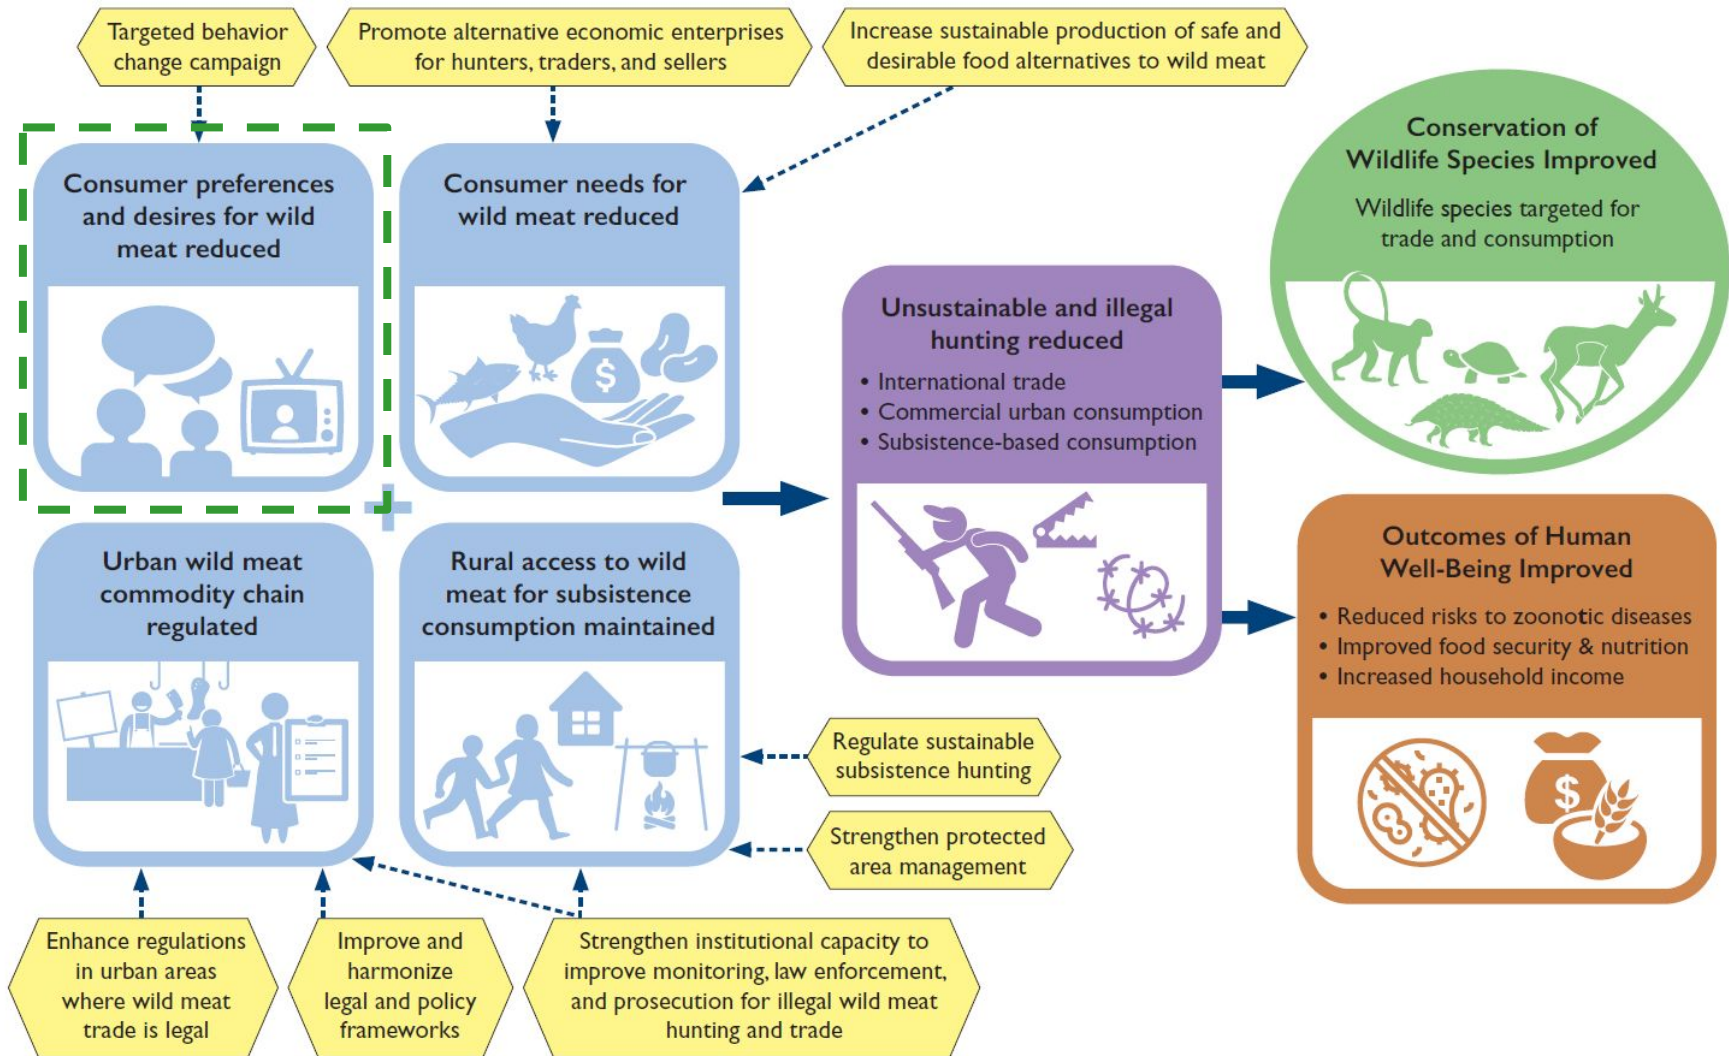

8:45-8:55

Q&A Discussion

8:55-9:00

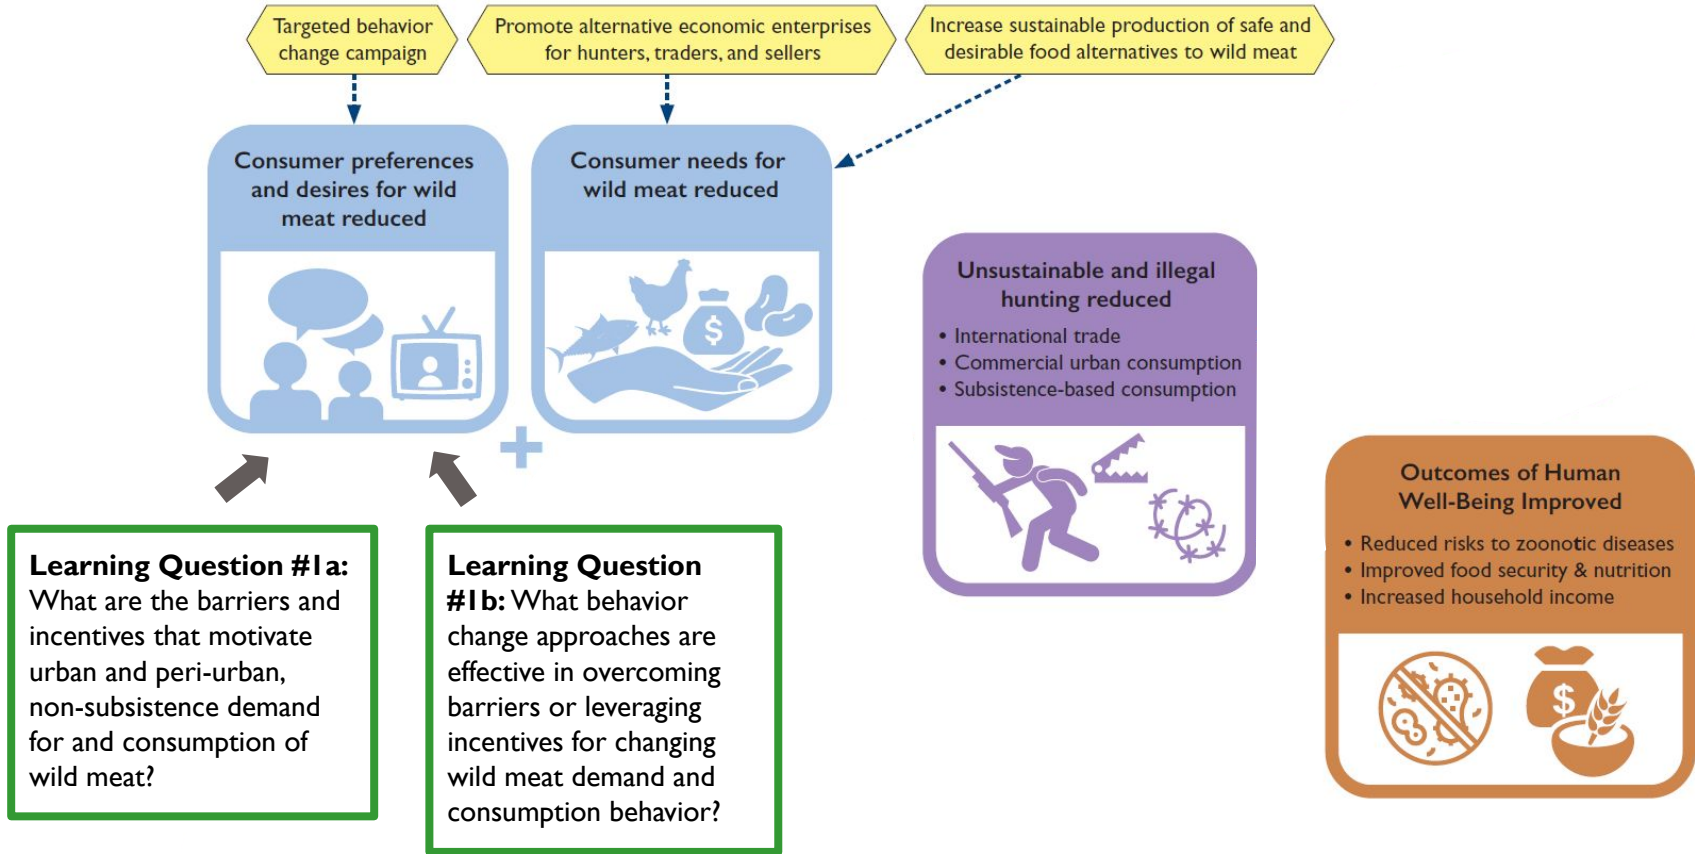

Wrap Up

LEARNING QUESTIONS

1a	What are the barriers and incentives that motivate urban, peri-urban, non-subsistence demand for and consumption of wild meat?
1b	What behavior change approaches are effective in overcoming barriers or leveraging incentives for changing wild meat demand and consumption behavior?
2	How effective is alternative protein substitution for subsistence-level consumption of wild meat?
3a	Where wild meat sales are legal, how effectively are regulations monitored and enforced?
3b	How effective are regulations at reducing illegal and unsustainable sale of wildlife?
4	What management systems for land and protected areas can support sustainable subsistence hunting for local communities without contributing to commercial hunting?
5	Where are the synergies between wild meat interventions and those focused on zoonotic disease, food security, and household income in USAID programming? What actions can USAID staff take to support mutually-reinforcing interventions?
6	What combination, if any, of strategic approaches are effective in achieving threat reduction and improving human well-being, and under what conditions?

Q&A / Discussion

Wild meat consumer audience segmentation

Background Research

Uncovering prevalence of pangolin consumption using a technique for investigating sensitive behaviour

Published online by Cambridge University Press: **07 April 2021**

Alegria Olmedo , Diogo Veríssimo, E.J. Milner-Gulland , Amy Hinsley, Huang Thi Thu Dao and Daniel W.S. Challender

[Show author details](#)

Background

- **Audience Segmentation:** a social marketing technique that defines subgroups within a larger audience and identifies a segment for intervention implementation.
- Demographic variables
- Psychographic variables
- Behavioural characteristics

Methods

- 400 respondents
- Intercept surveys in pedestrian areas close to wild meat restaurants
- Questionnaire based on food and restaurant satisfaction literature and existing research

Methods

- Two-step cluster analysis in SPSS
- Clusters = segments
- Exploratory analysis
- Optimal result: few but large clusters

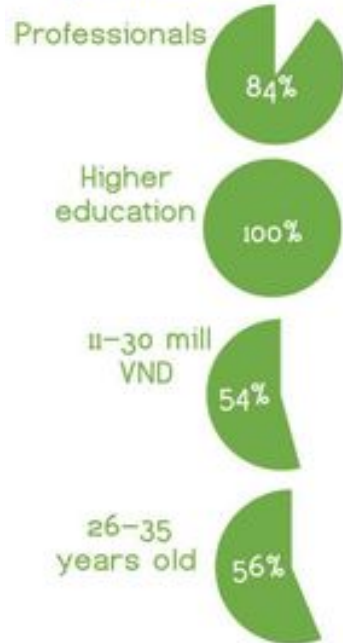

Results

- Profession
- Education
- Income
- Age

Results

Up-and-coming professionals

Classic consumers

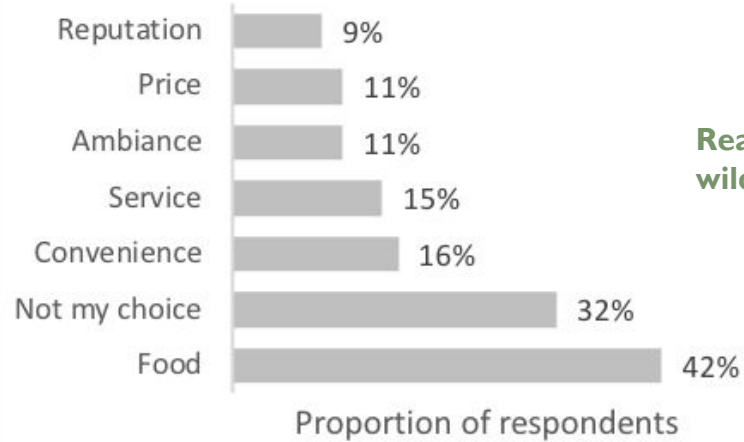

Students

Learning Questions

Learning Question 1a:

What are the barriers and incentives that motivate urban and peri-urban, non-subsistence demand for and consumption of wild meat?

Follow-up Focus Group Discussions

- “Special”
- “Exciting”
- “Out of the ordinary”
- “Change taste”

Results

- Multinomial regression
- Agency to choose the restaurant
- Ability to pay
- Likelihood of ordering wild meat

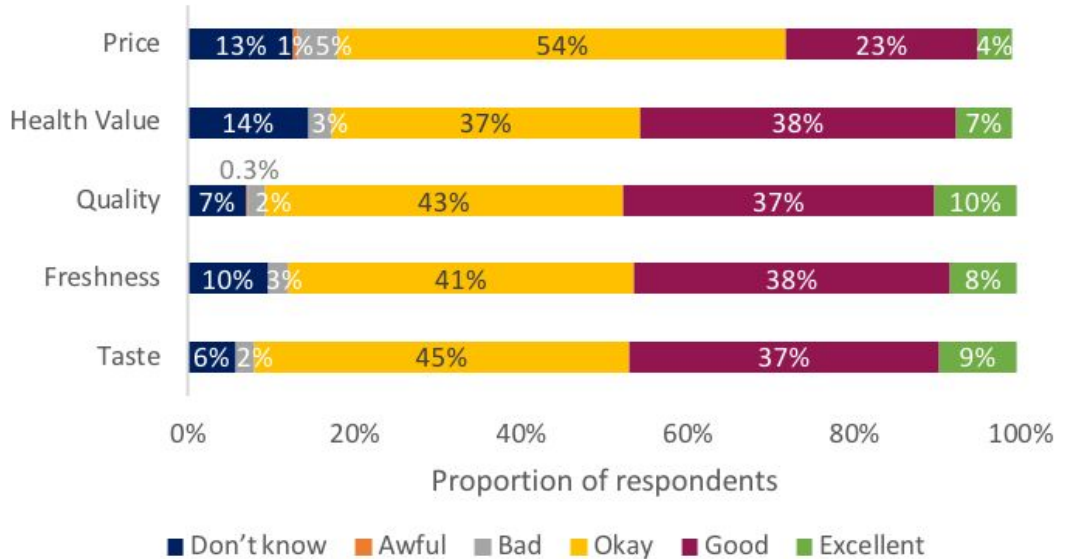

Learning Questions

Learning Question

#1b: What behavior change approaches are effective in overcoming barriers or leveraging incentives for changing wild meat demand and consumption behavior?

1. Promoting alternatives

Rating of food attributes

Learning Questions

Alternatives must be:

- “Out of the ordinary”
- “Special”
- Serve to “change taste”
- Pair well with more expensive drinks
- Restaurants must offer VIP room

Learning Questions

Learning Question
#1b: What behavior change approaches are effective in overcoming barriers or leveraging incentives for changing wild meat demand and consumption behavior?

2. Enforcing the law

- Availability
- Restaurants
- Consumers
