

# M/CIO ECONOMIC ANALYSIS AND DATA SERVICES (EADS)

EADS is USAID's central source for **foreign assistance and socioeconomic data**. One of our websites, IDEA, (International Data and Economic Analysis) houses thousands of indicators from hundreds of sources, including data on the environment and biodiversity. Here's how you can use IDEA to easily access biodiversity data, quickly compare countries across indicators, and read analysis by the data experts at EADS.

## IDEA.USAID.GOV

### THE IDEA QUERY

#### WHERE

Search by country, region, or income group

#### WHAT

Select an indicator from sources and subsectors, such as biodiversity

#### WHEN

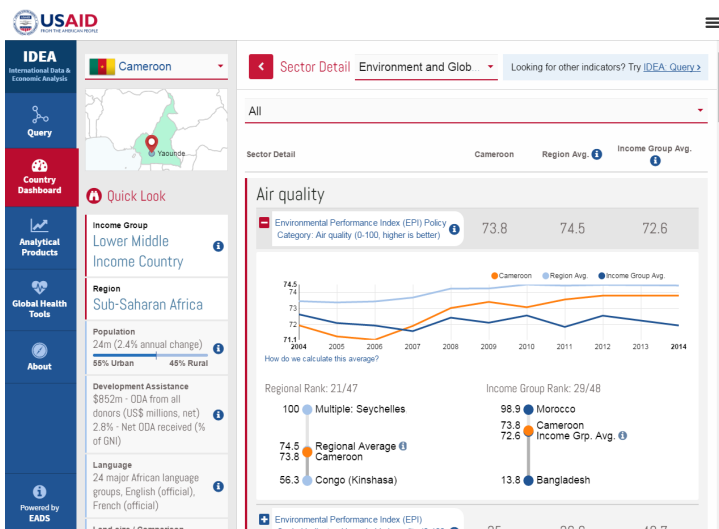

Refine by a range of years

#### RESULTS

View the results and download the data

### THE COUNTRY DASHBOARD

Compare a country with its **region** or **income group** and assess its progress over time. The Dashboard compares countries across eight sectors, 43 subsectors, and 280 indicators.

One of the eight sectors is Environment and Global Climate Change. Subsectors include:

- **Air Quality**
- **Biodiversity**
- **Climate Change Risk**
- **Emissions**
- **Energy Production and Use**
- **Freshwater Resources and Use**
- **Land Use.**

#### Biodiversity related sources found on IDEA:

United Nations Environmental Program, Environmental Data Explorer  
CIESIN and Yale, Environmental Performance Index (EPI)  
World Bank, World Development Indicators
