

# Integrating Geospatial and Field-based Science to Assess Biodiversity Conservation

*A Special Forum of Women Research Leaders*

2–3 April and 15 April 2009

Dr. Ruth DeFries  
(Columbia University)

Keynote address, Yi-Fu Tuan Lecture:

**“Land Use Transitions and Conservation”**

3 April, 3:30–4:30, 180 Science Hall

## Other speakers:

Dr. Karen Kainer  
(University of Florida)

Dr. Krithi Karanth  
(Columbia University)

LTC brings prominent women scientists to campus for a series of public lectures, informal discussions, and one-on-one meetings with students. This is an opportunity to discuss challenges women face in academia and environmental science.

*Special panels include*

**“Women in Environmental Science:  
Is the Pipeline Leaky?”**

**“Priorities for Future Research”**

**“Women and Careers in International  
Conservation and Development”**

See website for rooms and times:

<http://www.nelson.wisc.edu/ltc/>

Maggie Holland  
(University of Wisconsin)

Dr. Erika Marin-Spiotta  
(University of Wisconsin)
